

*Product Support Services for the 21st Century*  
*Founded in 1985*

Haulsey Engineering, Inc. (HEI) is an award-winning certified Small Disadvantaged Business (SDB), Veteran-owned SB (VOSB), and Service Disabled Veteran Owned Small Business (SDVOSB). Since our founding in 1985, the spirit of HEI and its staff has been reflected in our motto "Leaders by Performance." We are a recognized leader in the professional services community with a proven record of excellence in past performance, as evidenced by our recent award of the SBA Administrator's Award for Excellence. We have the capability, experience, and resources to respond effectively to a wide array of systems engineering, technical and administrative disciplines including integrated logistics support (ILS), life-cycle engineering/support, reliability, maintainability, supportability (RMS), human systems interface (HIS), systems safety, quality assurance and program office support.
